

to Great Britain, where the exports of the last four years were 1,300,000 bales.

**FLOUR AND MEAL.**—The market for the few parcels sent this year is very firm. Some small sales were made at 73 7/8 to 75 1/2. Very little Wheat in good order can be had below 75 1/2. The tendency to advance in price is continuing. To be delivered on the opening of River 3, 1200 lbs. Genesee, Troy and fancy flour sold at 75 1/2 to 77 1/2; 2000 lbs by 15th May at 80, 5000 bales in all May at 76 and 77 1/2 bales per ton at \$6 and part on private terms. There was considerable demand for New York flour, which sold up to 1,000 bushels. Inholders of Southern have advanced their views of 80 to 85 for brands and 500 to 1,000 bales George town and 1,000 bales Brandywine sold at that figure. There were also 1,000 bales Georgia and 1,000 bushels at 80 to 85. Meal is quoted at 75 for Jersey and 8000 bales Rye flour at 64 1/2 nominal—May 15 100 1/2 to 94 per cwt.

**GRAIN.**—There is considerable inquiry for Wheat and we action sales 25,000 bushels Genesee to arrive, in the neighborhood of 75 1/2 to 77 1/2. The market for 1,000 bushel Red Jersey is 80 and do not want to go down for more. The quantity of Corn offering on the spot is very small. The continued suspension of navigation has embarrassed some sellers to have who have been able to receive their Corn and have thus been forced to buy to deliver. This has caused an extra demand which, with the market still higher, there have also been some purchasers for the supply of districts at the South which have been swept by the millers. The Brandywine mills and others, we understand, are embarking, as well as the mills of the Western Reserve, to complete their contracts for meat. We have received letters from the Wahab Valley which state that the opening of navigation there will be much later than usual, and that the exports from that Valley will be only two-thirds what they were last season. The roads of last spring were in poor condition, and 1,000,000 bushels of grain and destruction was in the spots most accessible to market. The sales to day reach about 35,000 bushel, nearly all to arrive, including 7,500 bushel Southern white and mixed at 88 1/2; 15,000 bushel Northern and Northeastern Yellow at 86 1/2. The market for Corn is 80 to 85, and do not want to go down for more. From April 1st to June 1st, 1000 bushels to arrive, to pay 75 cents per barrel, but an advance on previous sales. About 2,000 bushel Barley were picked up at something off 75 for consumption, and 5,000 or 6,000 bushel to arrive on opening of river, at 75 cts. Rye is quiet, at 80 to 85, 44 1/2 for River, 41 for Jersey, 43 for Boston, 40 for Southern.

**WHEAT.**—The market is nominally 80c for bushels, but there is little or none here. Distillers ask 28c for Brudge Oil. We note 100 bales selected, North-west Ward at 371 cts for home use. English and American Linseed in small parcels at 80 cts. To arrive in May, 6000 gallons English sold at 75 1/2 cts.

**RICE.**—Sales 50 lbs for export. The range is 40 to 60. The latter for the better market.

**GRAPES.**—There are bases now doing in this market, but prices are before. Muscadine Sugars are perhaps 1 to 1 1/2 lower. We note sales 500 bushels of 60 to 62 1/2 cts; 200 or 250 N Orleans at 62 1/2 cts; 110 bushels brown Javana at 71 cts. A cargo of Brazil Coffee, 3200 bags, sold at 73 cts. The market is very high of this description. Malabar Molasses is steady at 20 cts. in barrels, 20 and 8 Orleans 35 cts, with moderate sales.

**SEEDS.**—We note further sales of 130 bushels new Ohio Clover at 77 1/2 cts. In Timothy there is but little doing at 81 1/2 for prime. A sale of 28 lbs inferior Rough Flax was made at \$11 12.

**HOPS.**—We note sales 30 bushels first sort Western at 90 cts for home use. Sales 100 bushels recent in from England to the Continent in relatively small lots, and we assume a decided downward tendency, and first sort expected Western can now be obtained at from 85 to 90 cts. There is no demand whatever for export, even at those prices, and as we may fairly anticipate a considerable reduction in the future.

**FRUIT.**—A public sale of 10,000 bushels was held at 85 1/2 bushels, all to arrive, including 7,500 bushel Southern white and mixed at 88 1/2; 15,000 bushel Northern and Northeastern Yellow at 86 1/2. The market for Corn is 80 to 85, and do not want to go down for more. From April 1st to June 1st, 1000 bushels to arrive, to pay 75 cents per barrel, but an advance on previous sales. There was a sale of 10,000 bushels Bacon at 80 cts. Butter and Cheese are far and in very small supply.
